Sixty-two members of Company B held a secret meeting before the exercises began and refused to drill if Captain Belknap was reinstated. Colonel Kopper heard of the decision of the men, and in order to avoid trouble appointed Captain Belknap as assistant to the inspector of rifle practice, Mr. Zabricskie. The men then consented to drill and received fifty out of the 150 badges

ONE OF THE " LAMBS."

From The Louisville Courier-Journal.

From The Louisville Conrier-Journal.

The Rev. "Pancake" Sorrel is conducting a great revival on the Upper Licking River, and is bringing many stray lambs into the fold. As a sample of the material on which he has to operate "The Mt. Sterling Sentinet-Democrat" lells this story about a young woman, who was saved:

"After she had signifed her willingness to 'line' by giving the preacher her hand, he asked her if she believed that Jesus Christ was the son of God, etc., and she answered with a cunning twinkle of the eye accompanied by an expression of self-reliant knowledge, 'You bet.' He then asked her if she had ever been immersed, and after some hesitation she said, 'Yes; John Nickell immersed me once and Marion Johnson a time or two.' She evidently did not know the meaning of the word 'immersed,' and when

Brother Pancake explained she was very much confused and said she thought it meant 'huggin',' Side SELECTIONS FROM THE MAIL was mixed on the words immersed and embraced."

It is my happiness to remember that I was among the earliest Americans who knew Mr. Browning in Europe, and I had the pleasure of giving him a copy of Margaret Fuller's review of his poetry, which she wrote for The New-York Tribune. It was the first important tribute, to his genius from this country, which welcomed him sooner and more warmly than his native land. It is evident that the spell of his power among us has but strengthened and widened with time, and thus Miss Fuller's fine appreciation was only the first note of what has become an American cherus of delight and admiration

tors who are now conisdering this bill will thus stamp their heels upon the business of importing? The argument of the friends of this measure is this: "The Government has the right to prescribe the conditions upon which merchandise may be imported." Perhaps so. It may have the right; but what of the policy of a party which thus in one enactment allenates from its support so large a class of intelligent citizens? Do Senators think that legislation so insulting to importers will be forgotten or overlooked when the ballots fall into the ballot-boxes?

I know the names of many who, like myself, are lifelong Republicans, and who grieve to see that the opposition to this section seems to be confined to the Democratic side. I know many whose allegiance to the Republican party has never before been questioned, who now waver and hesitate. As one of them said to me to-day; "My sails are shaking in the wind." I appeal to the Senate to consider carefully whether this fifteenth section is not a very long step in the direction of despotism. President Harrison said during the last campaign that no steps ought to be taken in that direction. When, in the last Congress, the Senate passed a tariff bill containing essentially this same provision, the contention of Senators Evarts and Edmunds that it was unconstitutional was unavailing and unheeded. If now Senators shall again entron diversion dwells in the minds of the Finance Committee, and that their recommendations should pass unavailing and unheeded. If now conators shall again entron diversion divels in the minds of the Finance Committee, and that their recommendations should pass unavailing and unheeded. I go into court for the determination of a question of fact, most of them will live long enough to see that a very grave mistake has been committed. I refuse to believe that the Senate will enact this section.

GREAT STRENGTH OF JAW.

From The Burlington (Vt.) independent.

The story which appeared in "The Independent" of December 20, over the signature of "Hulda A. Bean," giving a descriptive test of a yoke of exen and old fashioned home-made full-cloth in the Lamoille Valley, reminds me of an affair that occurred in early times in the town of Westford. One of the oldest settlers in the district, a man who was known throughout that part of Chittenden County as "Uncle Jeremy Austin," a powerfully built man, standing six feet skin, a building a new linches in his stockings, extremely long arms, and upping the scales at 225 pounds, was building a new larm 30×40 feet. The barn was up and being shingled, when the men chagged upon the building set him a dispute in regard to strength. It occurred shingled, when the men changed upon the building got into a dispute in regard to strength. It occurred to Jeremy that he could put an end to the dispute by giving a practical illustration of his wooderful strength and at the same time "turn an honest penny to his own credit." So he made a bet with his men, of two gallons of New-England rum, that he could take a thousand shingles under each arm and walk up the ladder and place them on the roof of the barn. The bet was promptly taken by the men, and Jeramy as promptly

"hooked" his long arm around the shingles and walked steadily up the ladder until his chin reached the eaves of the barn, when the ladder suddenly broke. Quick as a flash Jeremy caught on to the eaves with his teeth and hung there in mid-air, still holding on to the shingles until his men went to Uncle Ell Farnsworth's, a quarter of a mile distant, and procured another ladder and took him down.

Some thirty years later, Editor Gibbs, of "The St. Albans Messenger," then a young lad, with the writer, climbed a ladder, examined the caves of the barn, to verify the truthfulness, if possible, of Jeremy's exploit; and sure enough, there, as plain as day, was the print of Jeremy's teeth. It was convincing proof to our young minds that the feat was accomplished as above stated.

WEST JERSEY PRESBYTERIANS DIVIDED.

Camden, N. J., Jan. 28 (Special).-The West Jersey Presbytery to-day worked itself into a storm over the question of the revision of the Confession of Faith, and several times verged upon personalities. The questions submitted by the General Assembly were referred to a committee of five consisting of the Revs. W. H. Belden, William Alkman, John Ewing, W. Y. Louderbough and Quinton Gibbon. Three of the committee, Belden, Alkman and Ewing, submitted a major ity report in favor of revision, but expressing the opinion that changes should be made in such a manner opinion that changes should be made in such a manner as in no degree to impair the integrity of the Calvinistic system. The two other members of the committee made a minority report expressing horror at the thought of revising good old Presbyterianism and predicting the division and downfall of the Church if it be brought about. On these two reports there was a clash and the Rev. William Boyd, the Moderator, had his hands full. The Presbytery divided on the reports and each side made strennous efforts to gain points. Parliamentary questions were raised and discussed at great length and it was at last decided to postpone consideration for two weeks.

A MAGNIFICENT MOOR.

President Gilman's letter from Tanglers to The Balti-

President Gilman's letter from Tanglers to The Baltimore Sun.

As I looked from the rowboat to the top of the landing stairs I noticed in the crowd, which was dressed in all the colors of the rainbow and in all the varieties of Eastern fabrics, a tull, dark-faced Moor, with a capacious turban, a broad, blue, flowing robe and a stout staff, ending in a pastgral crook. "I am Mohammed," he called out, pointing to his heart either to confirm his identity or his veracity, i cannot say which. "The man I am looking for," was my answer. From that hour until our departure Mohammed took charge of us. We did not engage him, but he engaged ns. His tread was as dignified and steady as that of Salvini when he personates Othello. His shoulders were broad enough for a Samson. His voice was deep, rich and musical, like that of Carl Formes, when he was mounted upon his favorite mule, leading our cavalcade through the market place, or halting before the snake charmer, or climbing "the mountain," where foreigners have their houses. Ho was quite magnificent. We might think him a shelk or a pacha or any other dignity. Indeed, his aspect was far more impressive than that of the Cherif of Wasan, whom we met on one of our rides coming into town altended by four guards. Mohammed had his stories to tell of his father's four journeys to Mecca, of his correspondence with a gentleman in Baltimore, of the promises received from one of the Rothschilds respecting the education of his son, of his domestic life, and of the customs of the mixed tribes who inhabit Tangler. He was reserved when he was questioned about the Mohammedan religion, but out-

is the Sixth National, at Broadway and Thirty-third-st. The report which has spread lately that Charles H. Leland, the president of the bank, had disposed of a controlling interest in its stock and that the entire board of directors had resigned, has created much interest in financial circles, particularly when it was

added that the purchasers were English capitalists. The first part of the story is apparently true, and one of the men concerned in the transaction says he has no doubt that the recent reorganization of the bank has been made in the interest of a British syndicate. The Sixth National Bank was organized in 1864. Its capital stock at present is \$200,000 and there is a large surplus. Francis Leland, who died about six years ago, left large blocks of stock in this bank and the New-York County Bank to his sons, Charles H. Leland and Francis L. Leland, who became presidents of the institutions named For some time, it is said, Charles H. Leland has desired to dispose of his stock in order to be free from the cares it involved. On last Thursday he accepted an advantageous offer. The other directors, Charles Frothingham, the vice-president of the Board, L. G. Doubleday, William J. Quinlan, cashler of the Chemical

Bank, and his son, C. F. Leland, then resigned. Mr. Quinlan said that he was no longer a director, but he still held his stock, and considered it cheap at 300. When asked whether an English syndicate

at 300. When asked whether an English syndicate had bought the president's stock Mr. Quinian said he knew nothing about it. Charles H. Leland said he had sold his stock and the directors had retired, but he had promised to give no information as to who the purchasers were.

A statement was published yesterday that a "rumor from an authoritative source" declared that Jacob B. Tallman, president of the Equitable Eank, at No. 8 West Twenty-eighth-st. had become vice president of the Sixth National Bank under the reorganization. This, Mr. Tallman said last night, was not the case. The new president, he said, was P. J. Chassen, of Brooklyn, and he added that the cashier and clerks would be retained. He said that he had he best authority for the statement that the new owners of more than half of the stock were an English syndicate, and that they had also secured control of the Lenox Hill Bank, and were now looking for a third bank downtown. The Englishmen, said Mr. Tallman, paid \$700,000 for the stock and certain securities held by Mr. Leland for the bank.

RECEPTION AT THE WHITE HOUSE. Washington, Jan. 28 .- The President's reception to Congress and the Judiciary this evening attracted a fairly large assemblage to the White House. The east room and the corridors were well filled with men and women in evening dress. The members of the Supreme Court and of the Senate and Honse, in whose honor the reception was given, were not present in as large numbers as at the diplomatic reception. The East Room was elaborately decorated with a profusion of paims and ferns banked against the walls, and of paims and forms banked against the wais, and masses of roses and flowers adorned the mantels. The President was assisted in receiving by Mrs. Harrison and the ladies of the Cabinet, with the exception of Mrs. Blaine and Mrs. Proctor. Behind the line a large number of pretty girls stood, and received a few callers after the latter had shaken hands with the Passident.

VERMONT G. A. R. ENCAMPMENT

Rutland, Vt., Jan. 28 (Special).-The twenty-third annual encampment of the Vermont Department G. A. R. opened here to-day with 400 delegates and visiting veterans in attendance. The encampment was held in the Town Hall, which was elaborately decorated.

The Department of Vermont numbers 103 posts and

5,200 members, a net gain of 192 during the year. The department has lost forty-nine members by death. The department has lost forty-fine members by dealer the ensuing year: Commander, Colonel Z. M. Mansur, of Island Pond; senior vice-commander, J. E. Eldredge, of Warren; Junior vice-commander, J. W. Williams, of Bennington. The encampment was honored this afternoon by a visit from General Alger, Commander, In-Chief, who was accompanied by General L. E. Griffith, of Troy, N. Y., Inspector-general on his staff. General Alger arrived here from Boston.

AFFAIRS OF LITTLE MIAMI.

Cincinnati, Jan. 28.-The stockholders of the Little Miami Railroad Company at their annual meeting to-day voted to approve the action of the directors in increasing the capital stock \$3,000,000 and issuing \$3,000,000 of 71.2 per cent bonds. In the election of directors the old board was chosen except Messrs Van Antwerp and Truman. Their places were filled by the election of T. S. Cunningham and Joseph J
